Application No. 10/817508
*Page 9**Amendment*
*Attorney Docket No. S63.2N-6769-US06***Remarks**

This Response is in reply to the Office Action dated March 14, 2007, wherein claims 38-55 were rejected under the judicially created doctrine of double patenting.

Double Patenting

Claims 38-55 have been rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of U.S. Patent No. 6,896,696 and over claims 1-2 of U.S. Patent 6,776,793.

Without forming an opinion as to the validity of the double patenting rejection, Applicants note that the projected expiration date of a patent granted on the immediate application will be the same as the expiration date of the prior '793 patent, regardless of whether or not the immediate application is subject to a Terminal Disclaimer. Furthermore it is noted that the '696 patent is set to expire after the presumed term of '793 patent (and any patent which may result from the allowance of the present application). Therefore, in order to further timely prosecution of the immediate application, included in this filing are two Terminal Disclaimers to Obviate a Double Patenting Rejection Over a Prior Art Patent including the associated fees under 37 C.F.R. 120(d). Withdrawal of the rejection is respectfully requested.
